

Basilio Sainz

Semi Senior - Technical Artist

Dear Hiring Manager,

My name is Basilio Sainz, a Video Game Developer from San Rafael, Mendoza, Argentina, and a graduate of the University of Mendoza (2022). For the past six years, I have worked as a Technical Artist at Scubalight Studios, contributing to both in-house and client projects.

In this role, I have specialized in creating and implementing VFX, SFX, UI, and environment design, along with programming tasks in Unity (C#) and Unreal Engine (Blueprints). One of the highlights of my career has been Don't Kill Rumble, a project showcased at international events such as EVA (2023-2024, Argentina), Gamescom (Germany), and the Latin America Game Showcase.

I am passionate about bringing ideas to life through engaging visuals, sound, and interactive design, and I would welcome the opportunity to bring that same technical versatility and problem-solving mindset to your team.

Thank you for your time and consideration. I look forward to the opportunity to discuss how my skills and experience can contribute to your project's success.

Sincerely,
Basilio Sainz
